Elaine Willis

Checking in: BP -reasonably good. Aches'n'pains - few, but real and normal for my age. Skin - at the point of cremes - lookin' OK, if age spots don't count. Walk - shuffle. Run - what was that? Eat - few teeth, so, looking at Ensure. Memory - Like the guy who jumped out of a 10th story window: As he passed each floor, he yelled, "So far; so good!" Hearing? My biggest annoyance without hearing aids; with them I can have selective hearing!

There is hope of a more interesting schedule as Bible institute comes around again next Monday. I asked for two more classes than last year because I feel stronger.

My Hospitality House ministry is in full swing again.

"Mrs. Baptist" is not exactly like "Miss America", but tells the hamburger man where to take my supper order.

Taxi drivers are still my newest mission field. One came to church with us! I felt so rewarded.

Our Pastor, Carlos Lara is indeed proving himself called of God to his work as he completes two years of service on March 14th. We love him and his family and I am especially grateful to see such a one in the pulpit where my husband used to preach to us! The church is growing and active under his leadership.

This is my February letter. March letter should come around the 15th or 20th.

Love and gratitude, Elaine www.willismissionaries.org
