

## UPDATE – NOVEMBER 2023

Dear Family and Friends,

December 4, 2023

As of November 28, 2023, the political crisis turned around. God blessed with a peaceful solution that was officially made legal and binding on December 2, 2023. The blockades were removed from the highway and transportation, the lifeline of any country, was restored.

The stores are once again able to replenish merchandise and the schools resumed in-presence classes after two months of online classes, for which the pandemic trained the students as well as the teachers.

It was an experience to long be remembered. I hope it never blooms again, among the children, as “anarchy in the streets”, but Biblically, we are assured that it will.

Meanwhile there are consequences that must be dealt with as the days go by and, once again, we are forced to make adjustments to schedules, cancelled projects and postponed programs, such as our Bible institute graduation. “The show must go on!” is an old adage that we could apply in these uncertain days. THANK you for your prayers and continued faithful financial support! – E.W.
